PROJECTS

MENTEE – Mentorship SaaS Platform   July 2025 - Present
Full-Stack Web App (MERN Stack)   *Project GitHub*
- Designed **scalable backend** enabling mentor–mentee–admin connections.
- Implemented **JWT authentication**, role-based dashboards, and profile system.
- Added real-time chat with Socket.io and feedback system.
- Structured clean GitHub repo with README and proper commits.

DevConnect   August 2025 - Present
Full-Stack Web App (MERN Stack)   *Project GitHub*
- Architected the backend for a professional networking platform (**inspired by LinkedIn**) handling **complex user relationships**.
- Designed **advanced database schemas** to manage connection requests, user feeds, and profile data efficiently.
- Built and tested **15+ REST API endpoints** using Postman to handle posting, commenting, and user search functionality.

COMMUNITY & LEADERSHIP

- Collaborated with peers to **translate product ideas into backend features during hackathons and project development**.
- Active member of **GDG (Google Developer Groups)** for 1 year.
- Participated in Hackathons and developer events contributing to idea prototyping and backend logic.
- Built a professional online presence with **1500+ LinkedIn followers**.

CERTIFICATIONS

- **Full Stack Web Development (MERN Stack)** - Apna College
- **C++ and Data Structures and Algorithms** - Apna College
- **JavaScript (Intermediate) Skill Assessment** - HackerRank
